

MAKING QUALITY CABLES

ABOUT US

CAFCA is the only cable manufacturer in Zimbabwe. It was established in 1947 and is listed under the Zimbabwe and Johannesburg stock Exchanges. **CAFCA** is part of CBI Electrical African Cables (RSA), which in turn is owned by Reunert Limited (RSA).

MISSION STATEMENT

CAFCA's goal is to create long term stakeholders value.

BUSINESS PURPOSE

To be a leading manufacturer and supplier of cables for the transmission and distribution of energy and information for the Southern and Central African markets.

To be recognized for excellence in providing quality products and services that give best value to all our customers and other stakeholders.

OPERATING PRINCIPLES

- We consistently delight our customers
- We strive for continual improvement
- We achieve business excellence
- We recognize suppliers as active partners in our business
- We do it right
- We value each other's contribution
- We work as a team
- We provide equal opportunities and encourage personal growth and a balanced lifestyle
- We care for the environment
- We encourage honesty

CORPORATE RESPONSIBILITY

CAFCA, as our environmental responsibility, proudly stopped contributing to Landfills in November of 2019. Our operations are driven by sustainable waste solutions which reduce, reuse, recycle and recover all materials.

In the past, CAFCA has been actively involved in supporting the community through annual donations to Chinyaradzo Children's Home, Harare Children's Home, St. Joseph's House for boys and Entumbane Old People's Home.

PRODUCTS AND MARKET

CAFCA manufactures and supplies cables for transmission and distribution of electrical energy and information primarily in Southern and Central Africa. We manufacture over nine hundred cabling products up to 22kV XLPE cables.

CAFCA offers a toll manufacturing option to all its customers who can access key raw materials such as copper and aluminium, which are converted at the cost of value addition.

CAFCA also recovers decommissioned cables for recycling within a legal and environmental friendly framework. Recovered cables can be exchanged for other products within our manufacturing range.

MARKETS

CAFCA'S primary market is Zimbabwe although the organization has made exports to as far as Russia. **CAFCA** boasts of an active exports footprint in:

Malawi
Mozambique
Rwanda
Tanzania
Democratic Republic of Congo
Equatorial Guinea
South Africa
Russia
Zambia
Botswana

CAFCA's Competitive Edge

in the market derives from short delivery lead times, competitive pricing, extensive product range. Our multi-skilled staff and multi-purpose machinery present **CAFCA** with the flexibility to better serve the company's customers.

Copper Barter:

CAFCA recycles decommissioned copper cables and conductors as well as transformer and electric motor windings. The recycled copper can be traded in for good cables of same value.

SIGNIFICANT CUSTOMERS

Zimbabwe Electricity Transmission and Distribution Company - ZETDC
Zimplats - An Implats owned mine
Unki Mine - An Anglo African owned mine
Mimosa Mine
Sasol Mozambique
Electricity Supply Corporation of Malawi
Copperbelt Energy Corporation - CEC
Electricidade de Mozambique - EDM

MANUFACTURING STANDARDS

Standard Association of Zimbabwe (SAZ)

SAZ 240 - Electrical cables with extruded solid dielectric 300/500V, 1900/3300V

South African National Standards (SANS, formerly SABS)

SANS 1507 - PVC Distribution cable rated 300/500V and 1900/3300V

SANS 1418 - 2 Aerial Bundled Conductor

SANS 1339 - XLPE insulated cable rated 3.8/6.6kV and 12.7/22kV

SAZ 732 - Flexible cables

British Standards (BS)

BS 215 Part 1:1970 - Specification for aluminium conductors

International Electro-technical commission (IEC)

IEC 502 - Extruded solid dielectrical insulated power cables Kv and 30Kv

South African Post Office (SAPO)

BS 215 Part 1: 1970 - Specification for Aluminium conductors

British Post Office (BPO)

BPO CW 1127 - Aerial Distribution Telephone Cable (self supporting)

BPO CW 1128 - Jelly filled cellular polyethylene telephone cable

Post & Telecommunications (PTC)

Underground cables and Aerial Distribution copper cables

We also make product to customer's own specification.

QUALITY MANAGEMENT STANDARDS

Accredited to ISO 9001:2015 (First company to gain certification in Zimbabwe: year 1993)

ENVIRONMENT MANAGEMENT STANDARDS

Accredited ISO 14001:2015

(First company to gain accreditation in Zimbabwe: year 1999)

OCCUPATIONAL HEALTH AND SAFETY STANDARDS

ISO 45001:2018

Accredited in 2009

ENERGY MANAGEMENT STANDARDS

ISO 50001:2018

First company in Sub-Saharan Africa to be accredited in 2015

MILESTONES

CAFCA was the first company in Zimbabwe to achieve ISO 9002 accreditation, later upgraded to ISO 9001:2008, which enables us to design as well as produce cabling to international standards now have the 9001:2015 standard. In 1999 **CAFCA** became the first cable company in sub-Saharan Africa to be awarded the environmental standard, ISO 14001:2015.

Zimbabwe Electricity Supply Authority annual supply contracts

- Low voltage armoured cables:
1985-98, 2000-03
- All aluminum Conductor
1988-99, 2001-03
- Aluminum Conductor Steel Reinforced 1988-99, 2001-03

Anglo American Corporation annual supply contract 1985-2000

BHP annual supply contract 1996 - 1999

Botswana Power Corporation

- Split concentric annual supply contract
2000-2004

Botswana Ministry of Health

- Annual supply of low smoke and fume white stripe cables 2002-2004

CBI - Electric African Cables (South Africa)

- Monthly delivery of 600/1000V Red stripe to SANS 1507 2003 specifications

Confederation of Zimbabwe Industries (CZI)

- Industrial Exporter of the Year 1st Runner up 2005

Confederation of Zimbabwe Industries (CZI)

- Industrialist of the Year 1st Runner up 2008

Energy Efficiency Award of the Year

- 1st Runner up 2011

Manufacturing Winner of the Year 2012

National Industrial Energy Efficiency Award

- Winner 2013 and 2014

ZimTrade Exporter of the year

- Runner up 2012 and 2022

Energy Management System

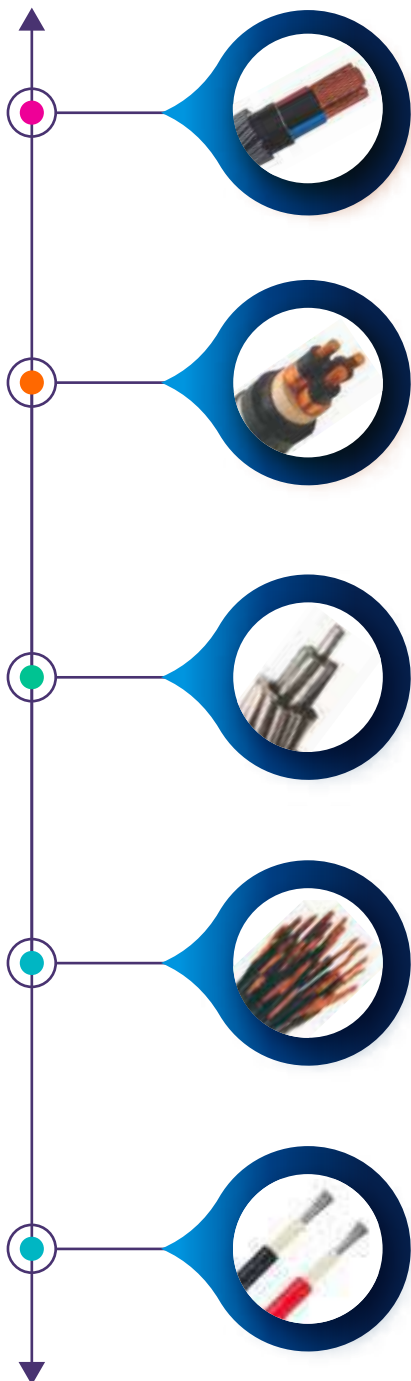

- Accredited to ISO 50001 Certified in 2016
(First to be certified in Sub-Saharan Africa)

Best Stakeholder Practices and Sustainability Reporting

- 2018 second prize - Institute of Chartered Secretaries and Administration

PRODUCT RANGE

Armoured Cables

Available from 1.5mm² to 300mm², 2-4 cores and in the 0.6/1Kv and 3.3Kv ranges. Other options available are flame retardant, low-tox and zero tox for various safety considerations in the case of a fire.

Medium Voltage XPLE Cables

XPLE insulated cable rated up to 11KV for underground power distribution networks.

Aluminium Conductors (All aluminium Conductor - AAC, Aluminium Conductor steel Reinforced - ACSR and All Aluminum Alloy Conductor - AAAC)

Overhead conductor for HT and LV power transmission and distribution.

Multi Core Cable

Cables for control panel wiring and signaling.

Solar Cable

Solar or photovoltaic (PV) cables used to connect solar panels to power conversion unit in the solar to electrical energy systems.

OTHER PRODUCTS IN OUR RANGE

Aerial Distribution Cable - Self supporting (with catenary wire) overhead service cable, polyethylene insulated. Aerial Bundled Conductor - Twisted and insulated aluminium conductor for overhead power distribution. Copper Rod - We convert copper cathode into 14.4mm copper rod and any diameters lower.
